Data sheet

Product code : WLM-2600
Product name : Wi-Fi modem router N300
EAN code : 8716502026463

Connect to ADSL2+ Internet and create a wireless network

With this modem router you can easily create a wireless network and share a broadband Internet connection, files and peripheral devices. Thanks to the integrated ADSL2+ modem, you can connect the modem router, which is compatible with all Internet Service Providers, directly to your ADSL line.

The modem router convinces with state-of-the-art looks and innovative design. Matt, shiny and textured surface finishing in black give the router a high-end touch. Air vents all around allow for maximum air circulation. The included stand allows the router to be positioned either standing up, mounted on the wall or in the classic desktop position.

The modem router has a range which is optimized for two floors and wireless speed of up to 300 Mbps. It is suitable for applications such as surfing the Internet, mailing and chatting with family and friends and online banking.

The modem router comes secured with an individual pre-set WPA2 security password. You can create a secure home network with just one push of the OPS (One Push Set-up) button.

This product comes with the extensive 10-year Sitecom warranty. Simply activate the long-term warranty by registering your product within 3 weeks of purchase.

works with Windows® / Apple / Android™ | Compatible with all ADSL providers | 10 years warranty
